

Amending Procedures for State Bylaws

A bylaws amendment should be submitted to the state adviser in writing 15 days prior to the state leadership conference or the executive council meeting in the summer.

Proposed amendments are distributed to members of the State FBLA Executive Council and Board of Directors. They react to the proposal so that a statement of support or disagreement is submitted from both groups at the time the proposal is to be voted upon at either the leadership conference or through the mailed ballot.

The state adviser will be responsible for distribution of the proposed amendments reviewed at the executive council meeting or received between the summer executive council meeting and the state leadership conference. Distribution will be made at least one week prior to the state leadership conference, the vote will be held during the first general session.

If the amendment is urgent enough to demand a vote by mail, the state adviser will be responsible for the distribution of the proposal and the ballots for voting. Voting by mail procedures will be handled as described in Article XIII of the state bylaws.
